Press Release

Yooii Studios announces release of Morning Kit application

For Release: October 22, 2013

Seoul, South Korea – Yooii Studios announced the release of Morning Kit, which is now available worldwide on the Apple App Store.

Morning Kit

Morning Kit is a simple yet powerful smart-alarm application that will change your morning routine. Yooii's designers combined an easy-to-use alarm with a display that contains all of the information you need to start your day.

Morning Kit's multi-panel display eliminates the need to search through your phone to find important information. Available panels include exchange rates, weather, quote of the day, and more. The display is fully customizable, so you only see the information that you need. Morning Kit is equipped with several unique color themes.

Yooii Studios

Yooii Studios is a smart phone application design firm based in Seoul, South Korea. Yooii's talented team came together with the sole purpose of improving your life by one percent. The team features an unparalleled mix of training and experience, from Game of the Year award-winning producers and prodigious software engineers to top-notch artists and marketers from US, China, and Korea.
